#### Notes:

• When stock is sold, you will usually receive Form 1099-B, *Proceeds From Broker and Barter Exchange Transactions*, reporting the proceeds from the sale. However, your statement will not always provide the cost/basis information necessary to compute gain or loss. If the statement does not contain the cost/basis information, you must provide it. You may need to contact your broker for questions about cost/basis and purchase dates of your stock accounts.

\$

\$

\$

- Often, "transfers" of stock or mutual funds within a brokerage account are actually sales of one type of stock and purchase of another. Even if you did not receive any cash from the transaction, you may have taxable gain or loss.
- If your stock dividends are automatically reinvested, the dividends will be taxable even though you did not receive any cash. The transaction is treated as if you had received cash and purchased additional stock. When the stock is sold, the amount reinvested over the years is taken into account. You may need to contact your broker for questions about the amount of reinvested dividends.
- If you sold property other than stock, your taxable gain or loss will be determined by your cost/basis. The cost/basis is usually the original purchase price plus improvements (the cost of repairs and maintenance are not taken into account for cost/basis).

## Taxpayer Responsibilities

- You agree to provide us all income and deductible expense information. If you receive additional information after we begin working on your return, you will contact us immediately to ensure your completed tax returns contain all relevant information.
- You affirm that all expenses or other deduction amounts are accurate and that you have all required supporting written records. In some cases, we will ask to review your documentation.
- You must be able to provide written records of all items included on your return if audited by either the IRS or state tax authority. We can provide guidance concerning what evidence is acceptable.
- You must review the returns carefully before signing to make sure the information is correct.
- Fees must be paid before your tax returns are delivered to you or filed for you. If you terminate this engagement before completion, you agree to pay a fee for work completed. A retainer may be required for preparation of returns.
- You should keep a copy of your tax return and any related tax documents. You may be assessed a fee if you request a duplicate copy in the future.

**Signatures.** By signing below, you acknowledge that you have read, understand, and accept your obligations and responsibilities. For a joint return, both taxpayers must sign.

**Depreciation.** Depreciation is the annual deduction that allows you to recover the cost or other basis of your business property over a certain number of years. Depreciation starts when you first use the property in your business. It ends when you either take the property out of service, deduct all your depreciable cost or basis, or no longer use the property in your business. The IRS has outlined a useful life (a set number of years) for most assets.

**Disposition of Property.** A disposition of property occurs when you sell property for cash or other property, you exchange property for other property, you transfer property to satisfy a debt, you abandon property, your bank forecloses or repossesses your property, or your property is damaged, destroyed, or stolen and you receive property or money in payment.

#### **Business Use of the Home**

Area of home must be used regularly and exclusively for business except for storage or daycare.

Note: Managing rental activities or investments does not qualify for business use of the home.

All Taxpayers	For Daycare Only			
A) Business use area (square footage)		1) Hours used for daycare		
B) Total area of home (square footage)		2) Total hours in year	8,760 hrs.	

Enter below only the expenses paid during the period the home was used for business.

Direct expenses benefit only the business use portion of the home. This includes painting or repairs exclusively for the business area.

Indirect expenses are for keeping up and running the entire home, such as mortgage interest and property taxes.

If you bought or sold your home during 2023, copy this worksheet and fill out one for each home.

### 1) Exclusive Use Test—Business Use of Home

The exclusive use test is met if an area of the home is used only for business. The area can be a room or other separately identifiable space. The space does not need to be marked off by a permanent partition. This test is not met if you use the area both for business and for personal purposes, such as a den used for business during the day and TV viewing during the evening.

The exclusive use test is not required for:

- An area used on a regular basis for storage of inventory or product samples.
- A home used as a daycare facility.

Storage of inventory or product samples—exception to exclusive use test. If you use part of a home for business to store inventory or product samples, you are not required to meet the exclusive use test. However, you must meet all the following tests.

- You are in the business of selling products at wholesale or retail.
- The inventory or product samples are kept in the home for use in the business.
- You home is the only fixed location of the business.
- The storage space is used on a regular basis.
- The storage space is a separately identifiable space suitable for storage.

### 2) Regular Use Test—Business Use of Home

The regular use test means you must use a specific area of the home for business on a regular basis. Incidental or occasional business use is not regular use. All facts and circumstances are considered in determining whether the business use is regular.

### 3) Trade or Business Use Test—Business Use of Home

To satisfy the trade or business use test, the portion of the home used for business must be used in connection with a trade or business. If the business use is for a profit-seeking activity that is not a trade or business, the deduction is not allowed.

### 4) Principal Place of Business Test—Business Use of Home

A trade or business can have more than one location. To qualify for a business use of home deduction, the home must be the principal place of business for that trade or business. To make this determination, the following are considered.

- The relative importance of the activities performed at each place where business is conducted, and
- The amount of time spent at each place where business is conducted.

A home office qualifies under this test if:

- The home office is used exclusively and regularly for administrative or management activities of the trade or business.
- There is no other fixed location where substantial administrative or management activities are conducted.

### **Self-Employment (SE) Tax**

- SE tax is a Social Security and Medicare tax primarily for individuals who are self-employed. It is similar to the Social Security and Medicare tax withheld from the pay of most wage earners. Your payments of SE tax contribute to your coverage under the Social Security system. Social Security coverage provides you with retirement benefits, disability benefits, survivor benefits, and hospital insurance (Medicare) benefits.
- You must pay SE tax if your net earnings from self-employment were \$400
  or more, or you had church employee income of \$108.28 or more. The SE
  tax rules apply no matter how old you are and even if you are already
  receiving Social Security or Medicare benefits.
- The SE tax rate on net earnings is 15.3% (12.4% for Social Security plus 2.9% for Medicare). Only the first \$160,200 (2023) of combined wages, tips, and net earnings is subject to the 12.4% Social Security part of SE tax.
